Console sign-in Manage console access

Console sign-in link: <https://760864322560.signin.aws.amazon.com/console>

Console password: Updated 38 minutes ago (2023-05-22 07:55 GMT+5:30)

Assign mfa device

Select an MFA device to use, in addition to your username and password, whenever you need to authenticate.

Authenticator app

Authenticate using a code generated by an app installed on your mobile device or computer.

Download google authenticator from playstore or Appstore

1

Install a compatible application such as Google Authenticator, Duo Mobile, or Authy app on your mobile device or computer.

[See a list of compatible applications](#) 

2

Open your authenticator app, choose **Show QR code** on this page, then use the app to scan the code. Alternatively, you can type

Open the app and scan the code

Now the code will start coming in front of you...put the two consecutive codes.

now logout with the user and login again

After putting pass it will ask you for authenticator code..open the app and put the codes...

You will be able to enter inside the management console
